AIR
ANIMALS
CONSERVATION
EARTH
ECOSYSTEM
OCEAN
PLANTS
RECYCLE
REDUCE
REUSE
SOIL

Can you fill in the answers to these
environmental questions?

Ecosystem

Pollution

Recycling

Reducing

Reuse

- * The relationship between plants, animals, soil, water and air is an Ecosystem.
- * Releasing harmful substances into our environment is called Pollution.
- * We can help save our limited resources by Reducing the amount that we use.
- * Don't throw something away if you can Reuse it.
- * Recycling allows us transform the materials of discarded products and make new products from them.
